

## Omran Mohamad

< Full Stack Developer / >

### ABOUT ME

I am a junior web developer who seeks to improve my skills in the field of developing and designing web applications, and to keep abreast of the software technologies that appear in this field continuously to be ready to meet the requirements of the market.

I like the style of teamwork that supports and aims to complete the implementation of projects.

My name is Omran Mohamad, a Syrian Arab citizen, born in Damascus in 1996

### EDUCATION

A Student at Damascus University, Faculty of Informatics Engineering, majoring in software engineering and information systems, in the fifth year
